

Greetings from Nataliya!

This Holiday Season the featured treatment is
Cinderella Plus -
Wellness for the skin and soul...

Many of you may wonder what “wellness for the soul” has to do with the subject of health and beauty. With the holiday season rapidly approaching, at times the craziness of holiday crowds and last minute shopping can make one’s stress level intolerable. Studies show that one of the best ways to alleviate emotional stress, is to seek alone time and space to indulge your senses. It is well known that Facial Massage helps to slow down the aging process. Not everybody is aware, however, that it is also used to relieve stress, migraine headaches, sinus congestions, and eyestrain. Facial massage can also be a special and peaceful treat for your soul. The more peaceful you become the easier you can deflect the negative impacts of our life. Take an hour before your special occasion or add extra 30 minutes to your electrolysis treatment and rejuvenate physically, mentally and emotionally.

This facial includes deep manual, machine, ultrasound pore purification or face massage, followed by our luxurious seaweed CASMARA Mask.(4 types offered) Immediate reviving effect of Cinderella Facials on the skin is a quick way to get a glowing complexion before a special occasion.

\$70 (regular \$95) \$25 savings
